LOCAL MINING REVIEW.

For the Week ending Dec. 14th, 1872.

The past week has made a great change in the mining matters of Pioche. Through the indomitable perseverance displayed by the laboring miner of this district, some marvelous developments have been made. Men have not been discouraged because there was a general depression in mining stocks, the Raymend & Ely going to 76, and other mines in proportion. They have shown no lack of courage, but have toiled day by day, whereby many have been richly rewarded for their labors. To the poor man prospecting is very expensive, but the merchants of our camp have been indulgent to the miner, and in almost every case they have received all due them, with good interest. On Thursday last the Charter Oak mine, one of the early locations of Ely District, recorded February 4th, 1870, made one of the richest strikes that has been made in the camp for a long time -a vein five feet in width that assays \$1,450 to the ton. The Excelsior is constantly hoisting ore, and is keeping one mill running night and day. The Sunbeam is showing a vein 3 feet in width, assaying at an average of \$1,380 to the ton. The Portland and many other mines too numerous to mention, have their dumps loaded with first class ore, awaiting their turn for a crushing. With such prospects, can the world say that Pioche does not hold the palm? The shipments of bullion for the week were, \$152,812.68.

CHARTER OAK.—Steadily working on this mine, and at the depth of 100 feet has resulted in a most glorious victory both for the owners and the future welfare of Pioche. Some time since, in our review, we gave a full description of this mine, predicting that from the general appearance of the mine, at the depth of 32 feet, that developments of extraordinary character would be presented before many days. Thursday last a body of ore was struck 5 feet in wieth. Assays were immediately readered and any days. simmediately made and the result showed \$1,300 and 1,450.90 to the ton. Eight tons of ore have been hoisted to the dump. Mr. Lees, the Foreman, was so jubilant over his success that he hoisted the entire 8 tons with waste in two shifts. Sinking continues. The shaft runs down at an angle of about 80 degrees. The ledge was followed from the top down. It now dips a little to the westward. The mine was incorporated in San Francisco some time ago. Mr. J. B. Low being made Superintendent is using his best endeavors, and will most probably meet

with success. WIDE WEST .- This mine has not been brought into notice until of late. It will be remembered that we gave a description of the peculiar character of rock that came from the ledge and the rich bearing it had. Several of our leading mining men have taken samples from the mine and pronounce it a good prospect. A wealthy company has been formed in San Francisco, proposing to incorporate the mine with a capital stock of \$3,000,-000. Papers are now being made out, and the probabilities are that before many months pass Panaca Flat will be saluted by the whistle from hoisting works on the Wide West.

Bowest.-It is well worth a walk to any one that will go and view the works of the Bowery, and the general manner in which the mine is being developed.

Mr. A. J. Blair, the Superintendent, shows that he has a perfect conception of mining by his work. His time is constantly employed looking after the wel-fare of the institution; he keeps ham-mering away and the prospects begin to look favorable. His genial manner and steady habits cannot help but meet with a decided success.

PIOCHE PHENIX.—The working shaft PIOCHE PHENIX.—The working shaft of this mine has reached a depth of 170 feet. The hoisting works are nearly completed and will be ready to start up this week. Work has progressed as well as could be expected—the depth being great making hoisting difficult. In the old works fine ore is being steadily hoisted. The ledge is large and well defined. Mr. Hardy, the Superintendent, expects to have 100 tons of ore milled this month, from which good results are expected.

Tobler Mine.—The location of this mine was made in the early part of 1870. and the work is being pushed rapidly ahead. It is situated directly under the "Ivanhoe," and is owned and worked by Messrs. Cavallier, White and Tobler. The shaft is down some 80 feet with a good ledge, several tons of ore have been placed on the dump and the probability is that the coming week will show a rich body

AMERICAN FLAG.—The depth of this mine is 400 feet. A contract was let a short time ago to sink 100 feet, and about 24 feet have been sunk. From the 4th level contracts were let to run drifts east and west, one for 100 feet and the other for 200 feet. About 30 feet has been finished on each drift. There is some good ore in sight, which will be

SUNBRAM.—Still progressing with the work on this mine, and most favorable results are the consequence. Three feet of ore now in sight, with assays of \$1,380 to the ton. Mr. Caldwell, the Superintendendent, feels gratified at his immense success, and will keep constantly hoisting pay rock for some time to come pay rock for some time to come.

Excusion.—This great mine still keeps improving. The east winze shows a heavy vein and a rich grade of ore. The entire mine looks encouraging. Some large shipments of bullion have been made from this mine, and the mill at Bullionville keeps constantly at work on the rook

KHEDIVE. - Three shifts are kept constantly at work. About 6 tons of ore has been hoisted to the top; average assays taken run from \$1,200 to \$2,600 to the ton. Superintendent Campbell states that he will make developments in a few days that will astonish the

S. ASHIM & BRO'S.

Compary Sauce at 112 S. ASHIM & BRO'S.
Beys' Suits.—Pretty. Substantial and Chang at S. ASHIM & BROS.

S. ASHIM & BROS.

CHEF EAST EXTENSION.—Still driving east on the 90-foot level. The ledge is well defined, with some good ore on the foot wall, and on Monday will commence to timber the winze below the 90-foot level, and when fully completed will resume work sinking. CHIEF EAST EXTENSION. - Still drifting

PACIFC TUNNEL is an important enterprise and is destined to exert a great influence in this camp. The winze on the first ledge is now down 60 feet, and as soon as a depth of 100 feet is attained drifting will be commenced. A drift from the main tunnel has been commenced for the purpose of tapping the second ledge, which will be cut in about 35 feet, and then ore will be taken out. The ledges are looking well, the main tunnel is being pushed ahead with all possible celerity, and everything connected with the real of the second se nected with the tunnel presents a healthy aspect. Indications warrant the expec-tation of a rich strike before many days.

CAROLINE.—This mine has completed its shaft to the depth of 100 feet and well timbered the entire distance. A contract to sink 50 feet more has been let. The rock is quite favorable for speedy sinking. Developments so far prove themselves favorable. Small feeders of quarts are comingin which will probably lead to the main ledge.

MONTANA .- This mine, now under contract, has reached a depth of 85 feet. Last evening some very good rock came in, and from its character we should judge that the vein is not far distant.

SILVER PEAR continues to improve as depth is attained. Yesterday some ex-cellent ore from the bottom of the shaft was shown us and it gives good promise for the future.

PIOCHE CHAMPION.—Shaft down 205 feet. Working steadily. No new devel-opments during the past week.

IMPENDING DANGER !- Those who lived in Pioche at the time of the burning of the town on the 16th of September, 1871, and were spared the consequences of the dreadful conflagration and explosion on that occasion, have a lively recollection of the loss of life which resulted from the explosion of powder, which had been stored in a prominent lecality in the town. In the absence of a town in-corporation, of course there is no legal remedy for the storage of powder in localities where in case of fire, the lives of hundreds may be endangered. Therefore, we appeal to all to be careful, for a fire may occur at any time, and let it not be said that in addition to fire we have to record an explosion of powder. There is no good reason why such explosive articles should not be stored where dan-ger is impossible. We learn of at least one who seems to disregard the usual precaution, and is storing powder in oublic place, where an explosion would deal destruction to numbers of people.

A WHITE OUTRAGE UPON INDIANS .-We learn from Col. Jennings, Deputy Indian Agent, that two white men went to the lower end of Meadow Valley five or six days ago, and being provided with liquor distributed the beverage among the Indians, and afterwards outraged one or more of the squaws. The Indians were greatly incensed, and the warriors painted themselves and prepared to go upon the war-path. Col. Jennings hearing of the trouble through some of the Indians, repaired to the scene of the disturbance, and by persuasion and the distribution of presents, induced the warriors to forego their contemplated raid. The prepetrators of the outrage deserve punishment.

"THE PROSECUTION RESTS."-Yesterday morning while the Grand Jury were pursuing their proceedings in secret and there was a lull in the Court of Justice Stoutenburgh, we happened to enter the Temple of Justice, where we found the District Attorney reclining upon an armed chair, with his feet in another. Soon after, Judge Pitzer, who is well known as something of a humorist, entered the room, and comprehending the situation at a glance, remarked—"The prosecution rests." The laugh which followed aroused our worthy District Attorney from his reverie, and the world went on as it went before.

CHINESE Row.-On Thursday a row occurred in Chinatown between two brothers of the sun. We have only been able to learn that card playing led to the difficulty, and that one of the parties received cuts in the hand and on the hip. The offender was the object of search by the officers, and so we concluded to say nothing about the affair, in the hope that the perpetrator of the crime might be arrested. We learn, however, that the party of the second part took the alarm when he saw the mischief he had done, and on Friday went out about four miles on the Hamilton road, where he took the stage for Hamilton.

How IT WORKS .-- A few days ago it was mentioned in these columns that there were some blankets at Justice Stoutenburgh's office, which the owner could obtain by calling for them. All that day the office was bessiged by parties claiming to have lost blankets; the callers might be numbered by hundreds, and they presented a truly cosmo-politan crowd, without regard to race, color or previous condition of servitude. The loss of the blankets seemed as prevalent among those of the genus homo as the epizootic among the equine

SPIRITED BUNAWAY. - Yesterday morning while a pair of horses were being hitched to a wagon they took fright, and down Main street they went at a breakneck speed. When they reached Kasten's saloon, corner of Main and Meadow Valley streets, under the excitement they took the sidewalk and ran as far as the Grambs' Hotel, but having broken through the sidewalk, they were brought to a stand-still. No damage was done except one of the horses was cut on the shin, but not badly injured.

HENRY BULLOCK .- C. B. Bullock writes from Georgetown, Colorado, under date of December 8, inquiring for Henry Bullock, who it is understood left White Pine for this county some time since. Whoever knows of his whereabouts will confer a favor by addressing C. B. Bullock, Georgetown, Colorado.

To ARRIVE To-DAY .- The following passengers left Hamilton yesterday for Pioche, who will arrive on to-day's stage: Nic. Kemphry, John Maddon, Mrs. Farmillum and children, R. S. Wright and Mrs. Dougherty.

Fon jewelry presents for the Christmas Holidays, go to W. Manning's, opposite Wells, Fargo & Co. dl5-1m

Assessments Levied .- Following is a list of the mines in Ely District upon which assessments have been levied, showing the amount of the assessments per share, the day upon which the assessment is due and the day of the

Kentucky—50 cents; delinquent Jan. 11; sale Feb. 1.

Amazon-10 cents; delinquent Jan 6; sale Jan. 22. Silver Peak-50 cents; delinquent Jan. 11; sale Jan. 31.

CAPT. H. H. DAY, formerly Superintendent of the Meadow Valley, has arrived in Pioche, and will take immediate charge of the Raymond & Ely. Our greatest wish is that Capt. Day may prove a worthy successor to Col. Light-ner. Capt. D. is an old-timer in the mines of this coast, and will prove him-self capable of the arduous duties assigned him.

SHEEIFF KANE, who has been for some weeks in feeble health, left Pioche on Friday morning for California, and expects to spend a time at the Paso Robies Hot Springs, San Luis Obispo county. It is the sincere hope of his many friends that a respite from the cares of office will restore him to health

PRESENTS TO INDIANS. - Col. Isaac Jennings, Deputy Indian Agent, in charge of Indian affairs in this section during the absence of Indian Agent Ingalls, has received instructions from his principal, in New York, to commence distributing presents to the Indians at St. George on the 13th and at St. Thomas afterwards.

THEATRE. The audience last night had a real treat. The house was well filled, and everything passed off to the satisfaction of all. Maggie Knight was the bright, particular star, of course, but Lorraine, Jenkins and Pierce were not of the fifth magnitude—their excellence was visible to the naked eye.

LEN WINES, well known in Eastern Nevada in connection with stage enterprises, is now taking a view of the situation in Pioche. He expresses himself pleased with the outlook, and we hope he will conclude to make a stay of it this

Morr, Fish & Co. have a superior stock of goods in their line. The underground cellar for the storage of merchandise is now approaching completion, and when the work is completed, they will be well prepared for the winter trade.

A. C. Gondon is progressing with his addition to the establishment on Lacour street. In a few days the addition will be completed, when his stock will show to better advantage. His stock of liquors is unsurpassed in this market. YESTERDAY the remains of Julius C.

Meyer were started for Treasure Hill, where his parents reside, and where his body will be consigned to its final resting place. THE Sentinel announces that Col. C.

W. Lightner passed through Eureka on on the 12th, bound for California where he will remain some weeks.

THERE are dispatches at the Western Union Telegraph office for J. S. Ayers, H. N. Conlin, J. J. Davis and T. H.

LYNCH'S CHOP HOUSE, John H. Lynch, an old and popular restaurant keeper in Pioche, informs the public that he will keep his house open day and night. The best of everything is supplied, including oysters, shell fish and clams. Public and private parties supplied. North side of Meadow Valley d7-tf
